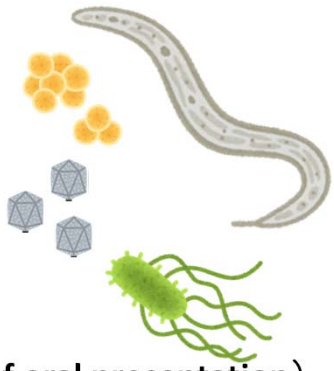
Agriculture and Life Science Seminar in Hirosaki University with partnership universities 2018

Phages, Viruses, Bacteria and Hosts

Aug. 6th, 2018　9:00-16:15
at 60th Anniversary Auditorium, 8th Floor Hakkoda Hall

Our faculty started a three-year program “Promoting globalization of the Graduate School of Agriculture and Life Science, Hirosaki University”. With the cooperation of Kyungpook National University (South Korea), one of our partnership universities, and Alagappa University (India), we have been exchanged academic knowledge together with some of our students since the program started. This workshop is a part of the program and aims to promote the students’ interests in science and to enhance their understanding of the global research standard, as well as exploring our scientific knowledge.

演　者：Dr. T. Sano （Professor, Hirosaki Univ., Japan）
Dr. A. Kashiwagi （Associate Professor, Hirosaki Univ., Japan）
Dr. Jae-Ho Shin （Professor, Kyungpook Univ., Korea）
Dr. K. Pandian （Professor, Alagappa Univ., India）
Dr. K. Balamurugan （Professor, Alagappa Univ., India）
Dr. E. Morita（Associate Professor, Hirosaki Univ., Japan）
Dr. K. Sakamoto （Associate Professor, Hirosaki Univ., Japan）
Dr. H. Himeno （Professor, Hirosaki Univ., Japan ）



（Order of oral presentation）

（Presentation will be provided in English.）

We will have poster presentations provided by students (13:30-14:30).
The topics will not be limited about phages, viruses, bacteria and hosts.

Chisato Ushida (Prof., Faculty of Agriculture and Life Science)
